State of the Campus

Michelle Just,
President & CEO

Beatitudes Campus is in Week 3 of our phased-in re-opening. I can't tell you what joy it brings our residents and staff to regain social connections and have a life full of ordinary moments – coffee with a neighbor, a game of bridge, a long walk around campus. After a year of disruption, the very ordinary moments have become extraordinary. For Independent Living residents, the re-opening guidelines for the coming week are the same as the past week. We have done well and protected each other during the current phase. We will be expanding our re-openings at the end of this month, so watch for details. Of course, we require mask wearing in all areas (except for resident apartments) and ask that you stay physically distant from others who are not part of your group.

For our licensed areas, re-openings are regulated by state and county health departments. For our assisted living areas (Plaza View and Early Memory Support), we have received guidance for a controlled re-opening. Residents may leave their buildings and walk outside and enter certain buildings throughout campus. Communal dining in Plaza View and in the Bistro are now available if reservations are made; meal deliveries will still be available. Up to two visitors, seven days a week can visit residents in assisted living, indoors or outdoors. It is with such joy that I saw an assisted living resident ready to start his daily walk – with a bottle of water and a granola bar in hand, he could feel the fresh air and feel the warmth of the sun. For our health care center, we are able to have indoor and outdoor visitation for our residents in Sierra Springs (3rd floor), but for Vermilion Cliffs (4th floor), our advanced memory support area, we are in outbreak status until March 26, as a direct care worker tested positive for COVID-19 a week ago. This means that the residents cannot have visitors, except for compassionate care.

Visitor Guidelines can be found on our website (<https://beatitudescampus.org/beatitudes-family/>) and clicking on Visitor Guidelines. Independent Living Guidelines can also be found in the Roadrunner (current issues are posted on our website (<https://beatitudescampus.org/beatitudes-family/>) and clicking on Information for Residents). If you have any questions, you can email us at BeWell@BeatitudesCampus.org.

We continue to follow our staff testing regimen and this week, again, all tests are negative for COVID-19 (we administered a total of 394 tests this week). We do feel that testing is an important step in stopping/slowing the spread of the coronavirus. Right now, we have one direct care worker in the Health Care Center who tested positive for COVID-19 last Friday and is quarantining at home.

We are so grateful that our residents and staff have had the opportunity for getting the vaccine, either at the campus clinics or at the county and state PODS. Next week, March 23, is our last vaccination clinic at the campus with CVS. This clinic is primarily for residents/staff who received their first dose of the vaccine last month (February 23). If, however, you have been unable to get your first dose of the vaccine yet, you may use this clinic to get your first dose! The staff at the clinic will help you schedule an appointment for your second vaccine, which will be off-campus.

I want to thank all of you for your strength and leadership in adhering to public health guidelines

JOIN US FOR STUDIO

The Studio is returning! For those of you who have been here awhile, you may remember the Studio. For those of you who are new, you are extended a special welcome to join us on **Thursday, April 8th at 9:00 AM in the Agelink Great Room.**

The Studio is hosted by David Ragan, Sr. VP of Resident Services and Josephine Levy, Success Matters. The Studio is an opportunity to engage our creative selves in sharing ideas about what a community like ours could look like. It's a chance to share ideas—(both outlandish and reasonable are welcome)—and explore “what might be possible” at Beatitudes Campus.

Every Thursday, residents gather to envision and create an outstanding community for today and to dream about what the cutting-edge community of the future will look like. This is not the venue to pick apart and complain about problems (fear not—those venues will return soon, as well!) but rather a space to dream and create. We talk about larger

scale projects such as the overall direction and policies of the Campus and then we get creative (and fun) about what we should look like 10 and 20 and 30 years from now.

On **Thursday, April 8 at 9:00 AM** we will meet in the **Agelink Great Room**. You can attend live and participate, or watch us **LIVE on ZOOM**. The broad topic of our first meeting will be Reclaiming our Community: Emerging Together. All attending LIVE are requested to please wear their mask.

If you would like to attend in person and participate, **please call Josephine at x16117 no later than Wednesday** so we know to make room. If you prefer to watch us on ZOOM live (and not actively participate) you can open your ZOOM account and enter Meeting ID 852 1093 4185 and the entry code 602544.

We hope to see you Thursday morning as we work towards returning to our “pre-pandemic” community.

OUR JOY THAT HATH NO END

Rev. Andrew Moore, Associate Chaplain

A Happy Easter to you all! It was wonderful to join with others in our Campus community at our Campus Easter Sunrise Service this year as we heard and rejoiced in prayer and praise; “*Jesus Christ is ris’n today, Alleluia! Our triumphant holy day, Alleluia! Who did once upon the cross Alleluia! Suffer to redeem our loss. Alleluia!*”

The hymns and liturgy of the Easter services help us to retell the dramatic story of new life, hope, and enduring love made real for us today. On Sunday our service began in semi-darkness as the resurrection of Jesus was symbolically proclaimed with the lighting of the Easter Candle symbolizing our joy being found through the stark difference made by that same light of Christ in our lives today. Darkness and light are at the heart of God’s coming among us in the person of Jesus. Although we often think of these words from the beginning of John’s Gospel as being read at Christmastime,

they are also fitting for our Easter celebrations; “*What came into being in him was life, and the life was the light of all people. The light shines in the darkness, and the darkness did not overcome it.*” That is the heart of our Easter celebrations – that nothing, not even the darkness of death can overcome the light of God’s love.

Over this past year the whole world has lived amidst the darkness of Covid 19, and we have all experienced in differing ways the darkness of despair, disappointment, loss, and confusion. But today we rejoice that that darkness has not overcome the Light. Around us now as we celebrate Jesus’ resurrection, we see signs of new life and new hope, and perhaps this Easter it is easier to recognize that what we are celebrating isn’t simply an historical event. For those of us who affirm the glorious victory of resurrected life two thousand years ago are also affirming the universal truth; Hope can never

now be extinguished, nor death have the last word, for the Lord is risen indeed. Alleluia.

*The day of resurrection! Earth, tell it out abroad;
the passover of gladness, the passover of God.
From death to life eternal, from earth unto the sky,
our Christ hath brought us over, with hymns of victory.
Our hearts be pure from evil, that we may see aright
the Lord in rays eternal of resurrection light;
and listening to his accents, may hear, so calm and plain,
his own “All hail!” and, hearing, may raise the victor strain.
Now let the heavens be joyful!
Let earth the song begin!
Let the round world keep triumph, and all that is therein!
Let all things seen and unseen
their notes in gladness blend,
for Christ the Lord hath risen, our joy that hath no end.*
