

December 28, 2021

Dear Beatitudes Family:

We are so pleased to give you some very good news – the Arizona Department of Health Services (AzDHS) just presented us with a holiday present – **we can now have indoor visitation in Plaza View Assisted Living and in the Piper residences!** That means you may visit your loved ones in Assisted Living (Plaza View and Piper Neighborhood) starting now. Of course, you will need to wear your masks, but you can now see each other face-to-face!

We are so grateful for your resilience and for bending and stretching as official guidance changes day to day. The past year has taught us that it takes a village – a network of people with common values – to connect and bind us together. What a beautiful village we have at Beatitudes Campus.

We are so happy that we are **open for visitors** once again. Please make plans to visit your friends and family at Beatitudes Campus. We wish you immense blessings and good health in the coming year.

Sincerely,

Rod Bailey, Senior Vice President
Kathy Deal-Sharp, Administrator of Assisted Living
